Cyber Security Awareness Training

Why is Cyber Security training important?

• You gain awareness and knowledge to work securely
• You learn techniques and adopt approaches to protect your data and systems from common cyber attacks

To access the course and for further information, which includes University guidance and advice: https://help.uis.cam.ac.uk/cyber-security-induction

Cyber security awareness training is delivered via the MyCompliance e-learning platform.

The training courses consist of engaging, few-minute modules, and aim to make training a regular part of an employee’s responsibilities without overwhelming them.

Log in to MyCompliance using your CRSid@cam.ac.uk email and NOT your institution’s email.
